

CORE RULE

GFV PRO COLOSSUS may be awarded only at competitions of the highest sporting level, solely to the winner of the highest overall title, and only with prior written GFV approval.

NO.	COMPETITION LEVEL	STATUS	CORE ELIGIBILITY REQUIREMENT
1	WORLD CHAMPIONSHIP	ELIGIBLE	An official federation World Championship. The award may be presented only to the winner of the highest overall title; GFV determines the specific title and number of awards in advance.
2	UNIVERSE / WORLD PRO / WORLD-LEVEL FINAL	ELIGIBLE	An official top-level international final equivalent in sporting status to a World Championship. The award may be presented only to the overall winner.
3	EUROPEAN / CONTINENTAL CHAMPIONSHIP	MAY QUALIFY	May qualify when it is an official federation championship at the highest continental level, with genuine participation by high-level athletes from several countries. The award is reserved for the highest overall title. Prior GFV approval is mandatory.
4	INTERNATIONAL ELITE GRAND PRIX OR INVITATIONAL	BY EXCEPTION	Only for an exceptional event with genuine international standing, an elite field representing several countries, and an overall title approved by GFV in advance.
5	NATIONAL CHAMPIONSHIP	NOT ELIGIBLE	National-level status alone is not sufficient for a GFV PRO COLOSSUS award, regardless of the number of participants or the event name.
6	REGIONAL, CITY OR QUALIFYING EVENTS	NOT ELIGIBLE	Regional, city or qualifying status does not meet the highest international level and is not eligible for GFV PRO COLOSSUS.
7	CLUB, COMMERCIAL OR EXHIBITION EVENTS	NOT ELIGIBLE	Does not meet the sporting and international prestige requirements of GFV PRO COLOSSUS, even if promoted as an international event.
8	WINNERS OF INDIVIDUAL WEIGHT, HEIGHT, AGE OR OTHER CATEGORIES	NOT ELIGIBLE	The award is not presented to individual category winners. It is reserved for the winner of the highest overall title approved by GFV in advance.

MANDATORY RULES

- GFV makes the final decision after assessing the federation, event status, athlete level and international recognition.
- The words 'World', 'International', 'European' or 'Universe' alone do not create eligibility for GFV PRO COLOSSUS.
- An award request must be submitted no later than 3 calendar months before the event.
- The competition must be coordinated with and approved in writing by GFV before the event begins.
- The award is presented only to the winner of the highest overall title approved by GFV.

ELIGIBLE

Meets the core level requirement, but prior GFV approval remains mandatory.

MAY QUALIFY

Assessed individually. European Championships are expressly included in this group.

BY EXCEPTION

Permitted only for an exceptional, genuinely elite international event.

NOT ELIGIBLE

The level, title or competition format does not meet the GFV PRO COLOSSUS standard.

ELIGIBILITY ASSESSMENT FOR EUROPEAN AND CONTINENTAL CHAMPIONSHIPS

A high-level European Championship may feature an exceptionally strong field and genuine international standing. GFV therefore assesses the actual level of the event, not merely its name. The objective is to allow prestigious continental championships to qualify while ensuring that GFV PRO COLOSSUS does not become a mass-produced or easily obtained award.

A EUROPEAN CHAMPIONSHIP MAY QUALIFY WHEN

- 1 Official federation status**
The event is officially recognised by an international federation as a European or other continental championship.
- 2 Genuine continental scope**
Athletes from several countries within Europe or the relevant continent take part; international status must not exist in name only.
- 3 High athlete level**
The quality of the field and competition meets the standard of an elite international championship.
- 4 A clearly defined overall title**
GFV PRO COLOSSUS is reserved for the highest overall title of the event, not for individual category winners.
- 5 Request submitted on time**
The organiser or federation submits the request no later than 3 calendar months before the event and receives a written GFV decision.

WHAT GFV ASSESSES

- 1 Federation and formal status**
Who officially organises and sanctions the championship.
- 2 International scope**
How many countries genuinely participate and the geographic spread of athletes.
- 3 Athlete level**
Whether the strongest and internationally recognised athletes compete.
- 4 Prestige of the overall title**
Whether the title represents one clearly defined highest achievement of the event.
- 5 Event standing and transparency**
Rules, official results, public visibility and a verifiable history.
- 6 Limits on awards**
How many titles and GFV PRO COLOSSUS awards may be allocated.

NOT ELIGIBLE, EVEN IF "EUROPEAN" APPEARS IN THE NAME

- ✗ The event is a commercial, club or open tournament without official continental championship status.
- ✗ The participant field is essentially national, while participation from other countries is symbolic or unverified.
- ✗ The award is proposed for the winner of a specific weight, height, age or other category.
- ✗ The request is submitted after the competition, after the winner is announced, or less than 3 months before the event.
- ✗ The organiser does not provide rules, participant structure, official results or other verifiable information.

APPROVAL AND ORDERING PROCEDURE

- 1 No later than 3 calendar months before the event:** submit the event name, date, location, federation, rules, expected participating countries, categories and overall title.
- 2 GFV decision:** GFV confirms in writing whether the event qualifies, which specific title is approved and how many awards may be allocated.
- 3 Award order:** production begins only after written GFV approval and confirmation of the order terms.
- 4 After the event:** official results are verified and the specific overall winner is confirmed.

FINAL PRINCIPLE

GFV PRO COLOSSUS is not a mass-produced medal. Its value is protected by limiting the number of awards and assessing every event individually.
Quality over quantity.
